WORK HISTORY

Neosperience - Senior Software Engineer

Full remote, Italy • 09/2023 - Current

- Led software development initiative as subject matter expert and primary point-of-contact for project management staff.
- Worked with project managers, developers, quality assurance and customers to resolve technical issues.
- Checked client code for bugs and weaknesses using approved troubleshooting methods. And Agile methodology
- Demonstrated experience and good hands-on programming experience Python(Django, Flask, FastAPI), Docker, in progress React.

Gruppo Athesis - Senior Software Engineer

Verona, Italy • 07/2018 - 08/2023

- My main focus is on developing and checking on three local newspapers websites, one of which is L'Arena di Verona, and some other minor magazines
- Thanks to this experience I've learn how to use new technologies like Django, Python, Apache Velocity, Java, Less, Sass, Bootstrap, CSS3, HTML5 and I've faced new interesting challenges and responsibilities
- Provided technical support using knowledge of complex technology to solve problems and support new projects.
- Collaborated with fellow engineers to evaluate software and hardware interfaces.

Accenture - Software Engineer

Verona, Italy • 01/2016 - 01/2018

- I worked in partnership with bank companies like Credem and Veneto Banca, managing their client's tool and developing and maintaining the digital signature software
- I often worked directly with the client, learning how to work under pressure and increasing my problem solving abilities

- I used Java EE, Dojo js, JQuery, Maven, IBM WebSphere, GIT
- Managed a team of Indian developers remotely with technical documents and alignment calls
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- Integrated third-party tools and components into applications.

Mediacy Web Agency - FE Developer

Jesolo(VE) • 01/2015 - 01/2016

- I worked on developing Bootstrap websites in Drupal, mainly for hotels in the area.
- Call Rest AJAX and API and managing the JSON response
- Create the FE of a webapp of Web Reputation Management in javascript / jquery <https://www.revalley.it/>

PROFILE - SKILLS
